## PDS Certificate / License Manager

You can quickly produce custom certificates or licenses using the simple but effective design tools included with the Redkite Certificate / License Manager.

A sample certificate / license - all images and wording can be changed to suit your needs.

## PDS Certificate / License Manager

The Redkite PDS Certificate / License Manager is designed to complement and enhance Redkite PDS Tracker. It enables the production of high quality certificates / licenses to show that you recognise and reward the achievements of your staff or those you are training.

- ✓ Design a unique certificate / license for each award incorporating your corporate logo and imagery.
- ✓ Identify competence / units / training that need to be achieved in order for a certificate / license to be awarded.
- ✓ Print certificates / licenses.
- ✓ Print competence or operational areas on the rear of the certificate or license.
- ✓ Record what certificates / licenses have been issued.
- ✓ Print duplicate certificates / licenses.
- ✓ Control the production of certificates / licenses.
- ✓ NEW Bar-code security feature.
- ✓ The Redkite Certificate / License can print a unique bar code on every certificate or license. Bar-codes can be scanned and will link to an on-line photograph of the owner for verification purposes.
