

Tracker is at the heart of Redkite CMS. It manages all aspects of your training and competence programme and maintains and manages life-long training, learning and assessment records.

- ✓ Contains an electronic paperless portfolio showing all training and learning activities and assessments made for each member of staff.
- ✓ Manages comprehensive competence records (National Occupational Standards) to NVQ standard.
- ✓ Visual dashboards quickly show what skills and competence members of a selected group hold.
- ✓ Allows role profiles to be created to fit specific posts and roles within your company.
- ✓ Shows role related training and development needs.
- ✓ Shows when refresher training and re-assessments are due.
- ✓ Provides a life-long audit trail showing full details of all training, learning and assessments undertaken.
- ✓ You can include any competence based development programme based on the standard structure of units, elements, performance criteria at no additional cost.
- ✓ Allows the creation, management and monitoring of personal development plans.
- ✓ Seamless links to Redkite Question Master, Redkite CBT and Redkite Course Management.

Redkite Tracker

The web-based, paperless system for recording and managing any type of training, learning or assessment. It holds:

- ✓ Training Records (Classroom and Workplace)
- ✓ Competence Profiles and Records
- ✓ Workplace Assessment Records
- ✓ Personal Development Plans
- ✓ Trainer and Assessor Records
- ✓ On-line Assessment Records
- ✓ E-learning Records
- ✓ Details of all courses attended
- ✓ Details of any certificates or licenses issued

New e-dashboard immediately shows local and central management what skills and competence are held by members of a selected group.

Use Tracker to record:

- Classroom Training sessions
- Workplace training
- Competence
- Workplace assessments
- Simulations
- On-line assessments
- Development Plans
- Annual or periodic reviews
- E-learning outcomes
- License renewals

Tracker is in daily use in:
